

Citrus College

Digital and Web Design

The Citrus College Digital and Web Design Program combines the technical aspects of computer graphic imaging and graphic design with traditional art classes.

Engineering Department classes will provide you with an understanding of how today's computer technology works, including web page set up, code and three dimensional animation.

Art classes will instruct you in illustration and photo manipulation, design, computer audio and video editing, two dimensional animation and text layout.

There are a variety of occupations related to the broad field of digital design. Web page designers create web pages for the Internet that contain information in the form of text and graphics.

Graphic designers use a variety of print, electronic and film media to create art. Some graphic designers create packaging, promotional displays, marketing brochures, visual designs for annual reports and logos for businesses or products. Animators work in the film and television industries, drawing by hand and using computers to generate a large series of pictures.

Among the organizations seeking qualified digital design professionals are communications, advertising and marketing firms, the entertainment industry, schools, corporations, manufacturers, distributors, and government agencies.

- Transferable
Transfer requirements vary from college to college. See a counselor to set or review an educational plan.
- 18 units may be applied to an associate in science degree in digital design
- Certificates of Achievement
Digital and Web Design
Advanced Digital and Web Design

- Day Classes
- Evening Classes
- Assessment test required for certificate of achievement, associate degree and transfer students.
- Financial aid is available to qualified students. Complete and submit FAFSA to determine your eligibility.

Digital and Web Design

College Admission

Admission to Citrus College is open to high school graduates and any person 18 years of age or over.

To enroll, submit an application for admission online at:

<https://wingspan.citruscollege.edu>

New students enrolled in five or more units and planning to earn an associate degree, a certificate of achievement, or a skill award must take an English and math skills assessment. In addition, new students who plan to enroll in English, mathematics or reading classes must participate in the skills assessment process.

Concurrent Enrollment for High School Students

Some programs and classes are available to current junior and senior high school students. Interested students should contact their high school counselor or the college's Admissions and Records Office.

Associate Degree

For an associate degree, a student must complete 60 degree-applicable units of work and fulfill specific general education requirements, including electives and physical education. A cumulative grade-point average of 2.0 ("C") or above is required.

For detailed information, refer to the college catalog or consult a counselor.

Transfer Requirements

Transfer requirements can be integrated with the associate degree option so that you may receive a degree at the time of transfer. **See a counselor for specific requirements for your major. Course requirements may vary among colleges.**
